

axxys[®]

A contemporary range of designs for the staircase of your dreams

Founded in 1988, Cheshire Mouldings is a privately owned business that prides itself on the quality of its products and service. By combining traditional craftsmanship and cutting edge technology, our range of stair parts and wooden mouldings has something for everyone, whether the project is large or small, contemporary or traditional, new-build or renovation.

For 2009 we've added some fabulous new designs to our **axxys**® portfolio and we think 'Evolution', 'Solo' and 'Clarity' in particular will be just perfect for customers who are looking to revitalise their living space without moving to a new one!!

Why not find your nearest distributor from www.cheshiremouldings.co.uk and step up to the staircase of your dreams?

Cheshire Mouldings. Love the home you're in.

Inspirational

axxys[®]

axxys[®] is a range of contemporary stair parts designed to inspire.

As a modular system **axxys**[®] provides the flexibility to blend components from across the range to create a stylish, bespoke staircase and a focal point for any living space. Clean lines and metallic details also allow **axxys**[®] to make a modern statement within more classic, period environments.

axxys[®] has been designed not only for its quality and style, but also for its simplicity to install. All components have been independently tested to conform to UK building regulations, are design registered and patent pending.

Contemporary modular system
Choice of wood variety and metallic finishes
Easy to install

For domestic use only. **axxys**[®] has been tested by FIRA to BS6180:1999

axxys® Solo

Stylish

Solo

New to the **axxys**[®] range, Solo's clean lines draw the eye to stunning metallic details in chrome or brushed nickel.

Solo can also be integrated with Cheshire Mouldings' standard range of stair parts for a unique look that blends traditional and contemporary.

A model of simple design and easy to install

axxys® Evolution

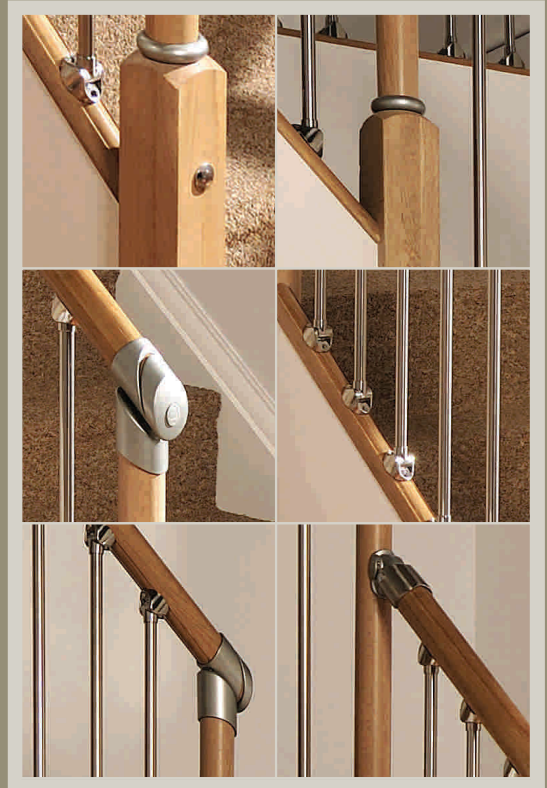

Modern

Evolution

Evolution is about subtle changes, fine tuning something over time that gives an end product perfect for its intended use.

Our evolution stairparts are just the same. We've taken elements from throughout **axxys**[®] and combined them to make a range that is subtle, balanced, stylish and tactile.

Choose from our chrome or brushed satin nickel finishes and put the 'R' back in evolution!

High quality
chrome plating

Pre-finished
wooden
components

axxys® Origin Chrome

Unique

Origin Chrome

axxys® Origin Chrome blends reflective metallic detail with the organic warmth of quality timbers.

Choose from oak, beech or pine to create a staircase that is respectful of the past but very much for the future.

High quality
chrome
plating

Pre-finished
wooden
components

Suitable for most
domestic stair
pitches between
38° and 45°

axxys® Clarity

Stunning

Clarity

axxys[®] Clarity is stunning in every way. The traditional spindle is replaced by clear acrylic panels that give an almost catwalk glamour to your staircase, while beautifully engineered components and handrails convey our designers obsession with quality and style.

This is no ordinary range of stairparts and although Clarity's natural home is as the centrepiece of a contemporary living space, the ability to blend its modern materials with more traditional finishes and environments are testament to the fact that clarity is something truly special.

Integrates with
Cheshire
Mouldings'
traditional range
of stair parts

axxys® Rail in a Box

Imaginative

Rail in a Box

More than just a handrail, **axxys**® 'rail in a box' joins your living spaces together with a feel of quality, style and solidity.

Available in chrome or brushed nickel and with a choice of three wood finishes, 'rail in a box' can blend seamlessly with existing fixtures or provide the finishing touch to an all-new **axxys**® staircase.

Simplicity of construction

Pre-finished

Adaptable

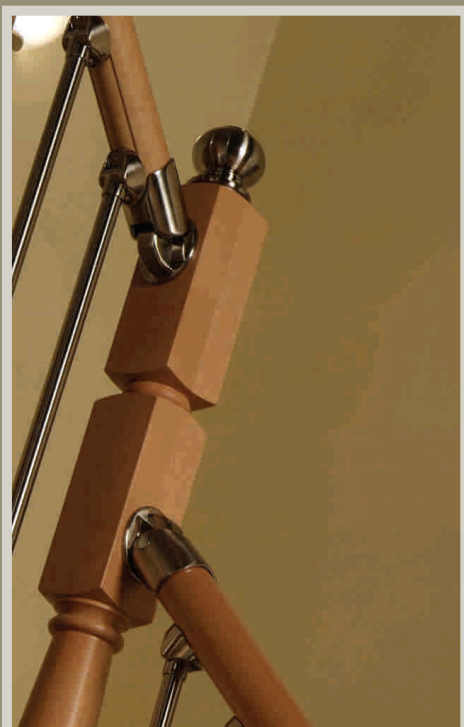

axxys® Origin Brushed Nickel

Origin Brushed Nickel

axxys® Origin brushed nickel is at the cutting edge of staircase design. This understated finish oozes style and epitomises good taste.

Combined with a choice of timber components, **axxys**® brushed nickel creates a hard wearing staircase that says less is most definitely more.

Understated brushed nickel finish

Compatible with a choice of quality timbers

Suitable for most domestic stair pitches between 38° and 45°

axxys® Cut String

Understated

Cut String

axxys® cut string is perfect for creating a spacious looking staircase that highlights the bold geometry of every step.

Cut string is also an ideal way to bring open-sided traditional staircases bang up to date in a cost effective and sympathetic manner.

Can be integrated with Cheshire Mouldings' traditional range of stair parts

Integrates easily with existing fixtures

Creates a spacious and open staircase
